## ADDITIONAL EXHIBITORS

### **Debuy Synthes**

1301 Goshen Parkway  
West Chester, PA 19380

**Booth: 411**

DePuy Synthes CMF is a global leader in medical devices, offering a comprehensive portfolio of implant systems for surgeons to treat patients who have sustained conditions affecting the face, head, neck and thorax. DePuy Synthes CMF is part of the DePuy Synthes Companies of Johnson & Johnson.

### **Ethicon**

4545 Creek Road  
Cincinnati, OH 45242

**Booth: 413**

The ETHICON brand is used for the products of Ethicon, Inc. and Ethicon Endo-Surgery, Inc., two companies with long histories of medical innovation, which provide globally a broad range of surgical technologies and products (including energy devices, sutures, staplers, clip appliers, trocars and meshes) used to treat colorectal and thoracic conditions, women's health conditions, hernias, cancer and obesity. Ethicon, Inc. and Ethicon Endo-Surgery, Inc. are part of the Johnson & Johnson Family of Companies. [www.ethicon.com](http://www.ethicon.com)

### **Estech**

2603 Camino Ramon #100  
San Ramon, CA 94583

**Booth: 203**

Estech develops and markets a broad portfolio of innovative medical devices and disposables that enable cardiac surgeons worldwide to perform a variety of traditional and minimally invasive surgical procedures.

### **Life Technologies**

5791 Van Allen Way  
Carlsbad, CA 92008

**Booth: 204**

Life Technologies' molecular diagnostic test Pervenio™ Lung RS helps assess a patient's risk for mortality due to early stage non-squamous, non-small cell lung cancer, after resection. Learn more at [LifeLabDx.com](http://LifeLabDx.com).

### **Transonic**

34 Dutch Mill Road  
Ithaca, NY 14850

**Booth: 213**

Transonic's AureFlo® Surgical-QA System is used during surgery with Transonic Perivascular Flowprobes to measure, display, capture and document absolute volume flow in vessels. Obtain peace of mind by measuring blood flow just prior to approximation with Transonic transit-time ultrasound flow measurement technology.
